

KOMATSU

PW75R

PROTOTYPE

Midi-excavator

Engine power
49 kW / 65.7 HP @ 2300 rpm

Operating weight
7480 - 8030 kg
Transport weight 7405 - 7955 kg

Bucket capacity
0.06 - 0.16 m³

Maneuverability

- Excellent maneuverability in narrow spaces thanks to an overall maximum width of 2080 mm and short tail radius
- Smaller turning radius in the category with 4WS system as standard
- Excellent travel performance with HST travel system with single gear ratio, no need to change gear at maximum speed on uphill

NEW

Flexibility on the jobsite

- Easy work setting with automatic axle lock
- Excellent moving on muddy ground with axle differential lock
- Good controllability of attachment flow with independent pump for travel system

NEW

Environmentally friendly

- Compliance with emission regulation with EU Stage V with DPF

Safety

- High visibility with rear camera
- Latest safety standards with EN474 compliance
- High visibility with full LED working lamps

Komatsu telematics

- High information amount provided by Komtrax controller TC830 integrating mini and PW information (Step 6 Komtrax)

Options

- Easy equipment management with Tool Control on both auxiliary lines
- Factory fit Lehnhoff Powertilt
- Trailer hitch
