

PRELIMINARY

Electric mini excavator

Engine power
2.5 kW electric motor

Operating weight
340 kg

Bucket capacity
0.008 m³

PC01E-1

Electric mini excavator

Powerful and environmentally friendly

- Eco-friendly, powerful 2.5 kW electric motor
- Zero emissions
- Powered by portable and swappable 1.3 kWh batteries, eliminating waiting time for charging
- Simple, stylish control panel displays battery charge level in big letters in the center of the monitor screen
- Easy maintenance: any engine-related maintenance work such as filter cleaning and fueling is no longer necessary
